</table>
1. Read all instructions before using this appliance.
2. Do not touch hot surfaces. Use handles or knobs.
3. To protect against fire, electric shock and / or injury to persons do not immerse cord, plugs, or Pressure Cooker Body in water or any other liquid.
4. Close supervision is necessary when this appliance is used by or near children. This appliance is not intended for use by young children without supervision.
5. Unplug from outlet when not in use and before cleaning. Allow appliance to cool before putting on or taking off parts, and before cleaning the appliance.
6. Do not operate any appliance with a damaged cord or plug, after the appliance malfunctions, or has been damaged in any manner. Return the appliance to the nearest authorized service facility for examination, repair or adjustment.
7. The use of accessory attachments not recommended by the appliance manufacturer may result in fire, electric shock, and / or injury to persons.
8. If the supply cord is damaged, it must be replaced by a special cord or assembly available from the manufacturer or your service agent.
9. Do not use outdoors.
10. Do not let the cord hang over the edge of a table or counter, or touch hot surfaces.
11. Do not place on or near a hot gas, electric burner, or in a heated oven.
12. Always attach the plug to the appliance first, then plug the cord into the wall outlet. To disconnect, or set all control to “off”, then remove the plug from the wall outlet.
13. Do not use this appliance for other than its intended use.
14. Extreme caution must be used when moving an appliance containing hot oil or any hot liquids.
15. Oversized foods, metal foil packages, or utensils must not be inserted into the appliance as they are a risk of fire or electric shock.
16. A fire may occur if the appliance is covered or touching flammable material, including curtains, draperies, walls, etc while in operation.
17. To reduce the risk of electric shock, cook only in the provided removable container.
18. This appliance cooks under pressure. Improper use may result in scalding injury. Before operating the unit, properly secure and close the unit. See “Operating Instructions.”
19. Do not cook foods such as applesauce, cranberries, cereals, macaroni, spaghetti, or other foods. These foods tend to foam, froth, and spurt, and may block the pressure releasing device.
20. Before use always check the pressure releasing device for clogging.
21. Do not open the pressure cooker until the unit has cooled and internal pressure has been reduced. See “Operating Instructions.”
22. Do not use this pressure cooker to fry in oil.
23. Be sure that handles are assembled and fastened properly before each use. Cracked, broken or charred handles should be repalced.

SAVE THESE INSTRUCTIONS
THIS APPLIANCE IS FOR HOUSEHOLD USE ONLY

ADDITIONAL IMPORTANT SAFEGUARDS

WARNING : This appliance generates heat and releases steam during use. Use proper precaution to prevent risk of burns, fires, other injuries, or damage to property.
1. Keep hands and face away from the Pressure Release Valve when releasing pressure.
2. Take extreme caution when opening the Lid after cooking. Severe burns can result from steam inside.
3. Never open the Lid while the unit is in operation.
4. Do not use without the inner Pot in place.
5. Do not cover the Pressure Valve with anything as an explosion may occur.
6. Do not touch the inner pot nor any heating parts, immediately after use. Allow the unit to cool down completely first.
**HOW TO USE EXTENSION CORD**

**Note:**
A. A short power-supply cord (or cord set) is provided to reduce the hazards from entanglement by a longer cord.

B. Extension cord should be used properly.

C. Extension cord usage for the rice cooker:
   1. The correct rated voltage should be used for the rice cooker.
   2. If the appliance is set on the ground, the extension cord should also be set on the ground.
   3. The cord wires and extension cord should always be arranged to prevent hazards to children.

This appliance has a polarized plug: (one blade is wider than the other).
As a safety feature, this plug will fit in a polarized outlet only one way.
If the plug does not properly fit in the outlet, turn the plug over.
If it still does not fit, contact a qualified electrician.
Please, keep this safety feature.

| - When separate it, the steam control vent can be blocked. | - If you have any problem with assembly and cleaning of the clean steam vent, please call a dealer or service center.  
- Keep clean the product before and after use. |
| Do not let the cooker contact any water by sprinkling water on the cooker. | |
WARNINGS FOR SAFETY

Warning

Do not cover the automatic steam outlet or pressure weight with a duster, a towel, or apron, etc.
- It can cause deformation or a breakdown.
- It can cause an explosion by pressure.

Do not use pots that are not designed for the cooker.
Do not use abnormal pot and do not use without inner pot.
- It can cause an electric shock or fire.

Do not turn the Lock/Unlock Handle to “Unlock” during cooking.
- The hot steam or any hot content within the cooker can cause burns.
- After you finish the cooking do not try to open the cooker by force until the steam is completely exhausted.

Do not place heavy things on the power cord.
- It can cause an electric shock or fire.
  Please check the power cord and plug frequently.

Keep the cooker out of children’s reach.
- It can cause burns, electric shock or injury.

Remove external substances on plug with a clean cloth.
- It can cause fire. Please check the power cord and plug frequently.

Do not insert metal objects such as pins and wires or any other external substances in the automatic steam exhaust outlet or any other slot.
- It can cause an electric shock or fire.
- Especially be careful to keep it out of reach of children.

Do not spray or put any insecticide and chemicals.
- It can cause an electric shock or fire.
- If cockroaches or any insects get inside the cooker, please call a dealer or a service center.

Don’t put any needle, cleaning pin etc in the ventilator or any gap of the cooker.
- Do not insert cleaning pins to other parts except to the valve hole of the pressure weight.
- It can cause an electric shock or fire.
- Especially be careful to keep it out of reach of children.

Do not use it without the inner pot.
- It can cause electric shock or malfunction.
- Do not pour rice or water without the inner pot.
- If rice or water gets in then do not turn the product over or shake it please contact to dealer or service center.

Do not open the top cover during heating and cooking.
- It can cause burns.
- If you need to open the lid while cooking, keep pressing the cancel button for 2 seconds and confirm internal steam is released, completely turning the pressure weight over.

Do not bend, tie or pull the power cord by force.
- It can cause an electric shock or short circuit resulting in fire. Please check the power cord and plug frequently.

Be careful that both the plug and power cord are not to let animal bite or to be shocked by sharp metal materials.
- Damages by impact can cause an electric shock or fire.
  Please check the power cord and plug frequently.

Keep the cooker out of children’s reach.
- It can cause burns, electric shock or injury.

Remove external substances on plug with a clean cloth.
- It can cause fire. Please check the power cord and plug frequently.

Do not insert metal objects such as pins and wires or any other external substances in the automatic steam exhaust outlet or any other slot.
- It can cause an electric shock or fire.
- Especially be careful to keep it out of reach of children.
WARNINGS FOR SAFETY

**Warning**

Do not use on a rice chest or a shelf.
- Do not press the power code between furniture. It can cause an electric shock resulting in fire.
- Please check the power cord and plug frequently.
- When using on furniture, automatically released steam can cause damage, fire, and an electric shock.

Do not plug or pull the power cord with wet hands.
- It can cause an electric shock.

Clean any dust or external substances off the temperature sensor and inner pot.
- It can cause a system malfunction or fire.

If you use cardiac pacemakers or electrical medical supporting equipment, consult a doctor before using this unit.
- When this unit is working, it can influence any electrical medical equipment.

**Caution**

Please contact dealer or service center when strange smell or smoke has occurred.
- First pull out the power cord.

Do not use over the maximum capacity.
- It can cause overflow or breakdown.
- Do not cook over capacity stated for cooking of chicken soup and congee.

Don’t use for various purposes for inner pot.
- It can cause deformation of the inner pot
- It can cause to spill the inner coating.

Please pull out the plug when not in use.
- It can cause electric shocks or fire.
- Use AC 220V only.

Use product on a flat surface.
Do not use on a cushion.
Please avoid using it on an unstable location prone to falling down.
- It can cause malfunction or a fire.
- Please check the power cord and plug frequently.

Do not touch the metallic surface of the inner pot and pressure weight after cooking or warming.
- It can cause burns.
- Remaining hot steam can cause burns when you tilt the pressure weight during and after the cooking.

Don’t use the cooker near a magnetic field.
- It can cause burns or breakdown.

Do not pull up the cooker by holding the inner pot handle.
- If can cause problems and dangerous situations.
  There are portable handles on bottom right and left side of the cooker. Hold the handles with both hands and move it carefully.

Do not use the cooker except for original purposes. It can cause danger and accidents.

Please use the cooker for original purposes.
- It can cause the malfunction or smell.

**Remember**

Please pull out the plug when not in use.
- It can cause electric shocks or fire.
- Use AC 220V only.

Do not use the cooker except for original purposes. It can cause danger and accidents.

Please use the cooker for original purposes.
- It can cause the malfunction or smell.
WARNINGS FOR SAFETY

**Caution**

After you finish cooking, do not try to open the cooker by force until the steam is completely exhausted.

- The hot steam or any hot content within the cooker can cause burns.
- Cautiously open the top cover after cooking is done to avoid dangerous steam and burns.

Do not place on rough top or tilted top.

- It can cause burns or breakdowns.
- Be careful to install the power cord to pass without disruption.

Do not drop the cooker or impact.

- It can cause malfunction.

**Do not**

Please call the customer service if the inner pot coating peels off.

- Oven coating may wear away after long use.
- When cleaning the inner pot, do not use tough scrubber, metallic scrubber, brush, abrasive metallic etc.

When the exterior of inner pot is titanium ion plated.

- The exterior of titanium inner pot can get darker when used for a long time.
- Use dry kitchen cleaner or sponge to clean the inner pot since rough scrub or metallic ones might cause scratch on the exterior of the plating.
- The friction of the inner pot with sink or other appliances can cause its plating’s coming off. (No problem to use it)

**Caution**

Be cautious when steam is being released

- When the steam is released don’t be surprised.
- Please keep the cooker out of reach of children.

When you pull out the power plug, don’t pull the power cord. Please, safely pull out the power plug.

- If you inflict impact on power cord, it can cause an electric shock or fire.

If power fails during rice cooking, automatic vapor emission device may work, leading to dispersion of contents.

- Cook rice with specified amounts of rice and water.
- In particular, water more than specified amount may cause overflowing of contents.
- Cook rice while soft steam cap is mounted.

Do not keep easily spoiled food warm in the product such as red bean rice, mixed food, croquette or gratin. (Except white rice)

Wipe off any excessive water on the cooker after cooking.

- It can cause odor and discoloration.
- Wipe off water that is left behind from dew.

Maintain more than 30cm of distance from the product while using.

- A magnetic field can be released from electronic goods.

**Remember**

Please clean the body and other parts after cooking.

- After cooking chicken soup or, multi cook dishes, etc., the smell may be absorbed.
- Clean the oven packing, top heater plate and inner pot every time you cook any of those.
- It can cause alteration or smell.
- Use dry kitchen cleaner or sponge to clean the inner pot, since rough scrub or metallic ones are abrasive to the coating.
- Depending on the using methods or user’s circumstances inner pot coating might rise.
- Please call the customer service for those cases.
- Please, do not pull out the clean steam vent by force.

Even if power plug is unplugged, turn the lid to the (Lock) location.

- In case My Cauldron is hot or hot cooked rice is left after cooking is completed, close lid and turn lid combining hand grip to (Lock) direction even after unplugging power plug. Otherwise product deformation or damage may occur by internal pressure.
- Be sure to turn lid combining hand grip to (Lock) direction during cooking and heat preservation before use.

Please contact dealer or service center when either a button of a product or a product itself is not working properly.
Plated inner pot with titanium ion (The outside)

Feature
1. By plating the surface with titanium the inner pot is more durable
2. Durable against corrosion
3. Exterior is plated with gold titanium

Name of each part

Soft Steam Cap
Pressure Weight
Always keep it horizontal it keeps the steam inside of the oven. When the pressure weight is twisted it releases steam.

Automatic Steam Exhaust Outlet
(Solenoid valve)
When finished cooking or during warming, steam is automatically released.

Lock/Unlock Handle
(Set the handle to lock when cooking or warming the rice)
The handle has to turn to ‘Lock’ for operation.

Clamp Knob
Turn handle to ‘Unlock’, and then press Clamp knob to open.

HOW TO CLEAN

-Unless you clean the detachable cover, it can cause bad smell (After cooling out, unplugging and cleaning it).
-Body and cover should be cleaned by a dry dish towel. Do not use bentol while using rice cooker, starch can remain. No effect on health.
-Do not put materials like screws into holes of detachable cover. Look up back cover and front cover.

Detachable cover & Pressure packing

After cleaning detachable cover, put it back on the lid
Unless detachable cover is mounted, preset cooking cannot be done. (Alarm may sound while keeping warm.)

1. Handle must be located at “Lock” during Cooking. The lamp turning on means the top cover is closed perfectly, so you can cook.
2. After cooking, the handle must be turned from “Lock” to “Unlock”, and then push clamp knob to open. It is hard to open when there is remaining steam in the Inner pot. At the time, twist pressure weight and let the steam out. Do not open by force.
3. Handle must be turned to the “Lock” position to begin cooking.

Wipe the inner, upper, and outer of the inner pot of any external substances. Do not use tough scrubber, metallic scrubber, brush, abrasive material etc.
Maintaining a rubber packing cleanly will let the rice cooker last longer.

CLEAN STEAM VENT AND SAFETY PACKING

Make sure to clean the clean steam vent after/before use. Do not try to pull out the clean steam vent and safety packing, clean it with care. Make sure the clean steam vent and safety packing are installed completely after/before use. If the steam vent is detached, or not attached completely, please contact customer service.

CONTROL

In case the cauldron is stained with cooked rice broth or foreign matter, wipe the cauldron with a damp dish cloth. Using a rough scouring pad or brush etc may damage cauldron surface.
If the buttons are functioning correctly please contact our customer care service.
How to clean the soft steam cap

Do not touch the surface of the soft steam cap right after cooking. You can get burned.

1. Detach the soft steam cap like the picture.
2. Press the hook in the back, and follow the arrow to detach and clean. Make sure you clean frequently with a sponge or a neutral detergent.
3. Assemble the vent so that it fits into the groove perfectly.
4. After you attach the soft steam cap to fit into the groove, press "A" part firmly to assemble the soft steam cap into the product.

How to clean dew dish

1. Separate dew dish.
2. Separate the drain ditch cap by pushing it down.
3. Clean the drain ditch cap and dew dish with a neutral detergent.
4. Clean the drain ditch cap with brush kit.
5. Securely put in the dew dish after cleaning.

Cautions when top cover does not close perfectly

Do not try to close the top cover by force. It can cause problems.

1. Check the inner pot correctly put in the main body.
2. To close the top cover, the handle must be located at "Unlock" as shown by the picture on the right.
3. If there are hot things in the inner pot, the top cover would not be closed. At the time twist the pressure weight and let the steam out and then close the top cover.
This function is used to select from among glutinous rice, turbo glutinous rice, sushi, GABA, mixed rice, dried rice, rinse free, nutritious rice, nutritious porridge, all-purpose, ginseng chicken soup, steaming and Automatic Sterilization (Steam Cleaning), and to modify preset time.

Keep Warm / Reheat button
Use it for warming or reheating the cooked meal right before eating. (Refer to page 55)

Pressure Cook/Turbo Button
Use it for cooking the rice. (Refer to page 46)

Cancel button
Use it for cancelling selected function or releasing remaining steam in the inner pot. (Refer to page 62)

When using Power saving function
(Refer to page 58)

Display

Set button
When you use selected function or button-lock function. (Refer to page 59)

Mode button
This function is used to customize individual cooking preference, time-setting, voice volume setting, keep warm temperature setting, and power saving movement.

Menu / Selection button
This function is used to select from among glutinous rice, turbo glutinous rice, sushi, GABA, mixed rice, dried rice, rinse free, nutritious rice, nutritious porridge, all-purpose, ginseng chicken soup, steaming and Automatic Sterilization (Steam Cleaning), and to modify preset time.

Error Code and Possible Cause

When the product has any problems or used it inappropriately, you can follow the below marks. If error persistently shows up even in normal using conditions or after taking measure, inquire with customer service.

- $L_J$
  - When the inner pot is not placed into the unit.

- $E_{..}$
  - Problem on temperature sensor. ("$E_{..}$" mark, "$E_{..}P$" mark, "$E_{..}L$" mark blink.)

- $E_{01}$
  - Problem on fan motor. ("$E$" marks blink.)

- $E_{03}$
  - When pressing the Pressure Cook and Timer button, while the Lock/Unlock handle is on “Unlock”
  - Turn the Lock/Unlock handle “Lock”.

- $E_{13H0}$
  - When boiling only water.

- $E_{do}$
  - When setting preset time longer than 13 hours
  - Set the preset time within 13 hours. (Refer to page 53-54)
  - It appears on the display when you press Start button again, or if the cooking has finished and you've never ever turned the handle to ‘Unlock’. It can be solved by turning handle to ‘Unlock’ and then turn to ‘Lock’.

- $E_{..u}$
  - Problem on micom power.

- $E_{uF}$
  - Problem on micom memory.

- $E_{co}$
  - Problem on environment sensor.

- $E_{P}$
  - Problem on environment sensor.

- $E_{FP}$
  - This error message shows up when Pressure Cook or keeping warm/reheating button is pressed while detachable cover is not mounted. Mount separate cover. Note: While keeping warm, alarm will sound and keeping warm and reheating do not work.

- $E_{FP}$
  - This code indicates the function of checking for abnormality of power or product.
HOW TO SET CURRENT TIME / HOW TO SET OR CANCEL VOICE GUIDE FUNCTION

How to set current time

ex) 8:25am now

1. Press mode button once.
   - It can be operated by pressing mode button for more than 1sec.
   - Current time mode press yes button” after setting current time with selection button.
   - Menu/Selection button blinks and Mode, Set and Cancel buttons turn ON.
   - Colon mark(;) on the sec. screen is blinging once per second.

2. Set 8 o’clock and 25 minute as pressing menu/selection button.
   - 1 min up " " button
   - 1 min down " " button
   - 10 min up or down " " keep pressing.
   - Careful of setting am, pm.
   - In case of 12:00 it is 12:00 pm.

3. When finishing to set time you want, press “Set” button.
   - If it is over 7sec without yes button, setting time will be canceled with voice,”it is canceled due to overtime”.

About Lithium battery
- This product contains lithium battery for improving blackout compensation and time. Lithium battery lasts for 3 years.
- When current time is not displayed on the screen, it means the battery is exhausted. It should be replaced.

What is blackout compensation
- This product remembers and maintains previous condition and processes. After finishing blackout, it operates immediately.
- If blackout happens during cooking, the cooking time will be delayed depending on blackout time.
- If the rice became cold because of blackout, warming will be cancelled.

Voice guide volume control (The function which can control volume and cancel)

To enter this function, press Mode button 2 times. Mode button needs to be pressed for over 1 second at the first time.

‘3’ sign is displayed when entered volume control mode by pressing Mode button 2 times.
   - Menu/Selection button blinks and Mode, Set and Cancel buttons turn ON.

If set value became ‘0’ by pressing button, voice guide function is off.

Press button to set ‘5’, that is the maximum volume sound. When finish setting desired volume, press Mode button to store.
   - Set button blinks and Mode, Menu/Selection and Cancel buttons turn ON.
   - Keep the button pressed, and the button will turn to Continuous.
   - Set to desired voice volume, and press Set button.
Night Voice Volume Reduction

Set the function of night voice volume reduction, the function to reduce the volume of voice during night time (10:00 PM-05:59 AM) on need-to-do basis. This function works only during night time.

1. Press mode button 8 times in standby status, and you will enter Night Voice Volume Reduction mode. When pressing mode button initially, press the button for 1 second or longer to enter Night Voice Volume Reduction mode.
2. When you enter Night Voice Volume Reduction mode, a voice comes up saying “You have entered Night Voice Volume Reduction. Select or inactivate Night Voice Volume Reduction mode with ‘Select’ button and press ‘Confirm’ button.”
3. Press ‘Menu’/’Select’ button, and as process progress bar changes, voice volume will change. Select desired voice volume, and press ‘Confirm’ button.
4. Once process progress bar reach full condition through adjustment of ‘Menu’/’Select’ button, a voice will come saying “The function of Night Voice Volume Reduction is inactivate.” Inactivate the function by pressing ‘Confirm’ button.
5. If ‘Inactivate’ button is pressed or no button is pressed for 7 seconds after you enter Night Voice Volume Reduction mode, the function will be inactivated along with voice “As set time is elapsed, the function is inactivated”, and the system will be back to standby mode.

Woman and Man Voice Setting Function

This function helps you select Auto voice for either a man or woman’s voice. With this function, you can set to your desired voice.

1. Press mode button 9 times in standby status, and you will enter Woman and Man Voice mode. When pressing mode button initially, press the button for 1 second or longer to enter Woman and Man Voice mode.
2. When you enter Woman and Man Voice mode, a voice comes up saying “You have entered Night Woman and Man Voice. Select or inactivate Woman and Man Voice mode with ‘Select’ button and press ‘Confirm’ button.”
3. After setting Auto (woman and man) voice with ‘Menu’/’Select’ button, man voice or woman voice, and press ‘Confirm’ button.
4. If ‘Inactivate’ button is pressed or no button is pressed for 7 seconds after you enter Night Voice Volume Reduction mode, the function will be inactivated along with voice “As set time is elapsed, the function is inactivated”, and the system will be back to standby mode.
1. Clean the inner pot and wipe the water on the inner pot with dry cloth.
   - Use the soft cloth to wash the inner pot.
   - Tough scrubber can make the coating come off.

2. Measure the amount of rice you want to cook using the measuring cup.
   - Make the rice flat to the top of measuring cup and it is serving for 1 person. (ex: for 3 servings → 3 cups, for 6 servings → 6 cups)

3. Wash the rice with another container until the water becomes clear.

4. Put rinsed rice into the inner pot.

5. Accordin to menu, adjust the water amount.
   - For measuring, place the inner pot on a leveled surface and adjust the amount of water.
   - The marked line of the inner pot indicates water level when putting the rice and water into inner pot together.
   - About water scale
     - Glutinous rice, turbo glutinous rice, mixed rice and nutritious rice: Adjust water level to the water scale for 'glutinous rice, mixed rice and rinse free'. Glutinous rice can be cooked to max 8 servings, turbo glutinous rice, mixed rice and nutritious rice to max 6 servings.
     - Sushi: Adjust water level to the water scale for 'sushi'. Sushi can be cooked to max 6 servings
     - GABA: Adjust water level to the water scale for 'GABA'. GABA can be cooked to max 6 servings
     - Nutritious porridge: Adjust water level to the water scale for 'nutritious porridge'. Nutritious porridge can be cooked to max 1.5 servings
     - Dried rice: Adjust water level to the water scale for 'Dried rice'. Dried rice can be cooked to max 6 servings
     - Rince free: Adjust water level to the water scale for 'Rince free'. Dried rice can be cooked to max 8 servings

6. Put the inner pot into the main body and close the top cover.
   - Please, check if detachable cover is attached
   - In case detachable cover is not attached, when pressure cook/ reheat button is pressed, “Eco” error could occur and cook/ warm function will not work.

7. Connect power plug and turn the handle to “Lock”
   - The lamp turning on means closed perfectly.
   - If you press the cook button without setting the Lock/Unlock handle to “Lock” the cooker will not operate. You will hear “beep beep beep” sound and “E01” is shown in the LCD.
   - If you want to select another function while cooking, push cancel button.
   - If “E00” mark shows up in other instance, turn cover handle to “Open” direction, and turn it toward “Lock”. Then the cooker will work normally. (The operation of cover lock sensing device can be checked.)
   - Note: This instruction is not applicable if cover handle is turned toward “Open” direction once or more after cooking was completed in previous cooking.

**In case detachable cover is not attached, when pressure cook/ reheat button is pressed, “Eco” error could occur and cook/ warm function will not work.**
Cook tasty rice with Cuckoo pressure rice cooker

For the best taste of rice, check the following points carefully.

<table>
<thead>
<tr>
<th>Use the measuring cup!</th>
<th>- When measuring the rice, use the measuring cup. (The amount of the rice may vary depending on the quality of the rice.)</th>
<th>If amount of water and amount of rice is different, rice can be crisp or hard.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pour the water until water level marking in the inner pot!</td>
<td>- Place the inner pot on a flat surface and adjust the water to water level in the inner pot.</td>
<td>If the rice is too dry, rice can be crisp even though it is measured properly.</td>
</tr>
<tr>
<td>How to store rice</td>
<td>- If possible, buy a small amount of rice and keep the rice some place where ventilates well and avoid a direct ray of light. It can prevent evaporation of rice moisture. - If the rice has been unsealed for long, rice can be dry and stale. In this case, you should pour the half of water more. It’s tastier.</td>
<td></td>
</tr>
<tr>
<td>Shorten the duration of the “Present” time for better cooking.</td>
<td>- If possible, do not use the preset time function when rice is too dry and pour the half of water more.</td>
<td>- If you set “Preset” over the 10 hours or “Preset” dried rice, rice can be crisp or half cooked. Even worse condition, rice can be cooked different tastes each level. - If the preset time is longer, the melanoizing effect could be increased.</td>
</tr>
<tr>
<td>It’s better to set the “warm” time shortly.</td>
<td>It’s better to set “warm” less than 12 hours.</td>
<td>If rice is kept warm for a long period of time, rice color will change, as well as odor.</td>
</tr>
<tr>
<td>Keep the product clean.</td>
<td>- Clean the product often. (Especially clean the top of the cover for external substance.)</td>
<td>Wipe the top cover heating part well for any rice or external substance.</td>
</tr>
</tbody>
</table>
Choose menu with menu/selection button.
- Select button.
- Each time “Menu” button is pressed, the selection switches in the sequential order, glutinous rice → turbo glutinous rice → sushi → GABA → mixed rice → dried rice → rinse free → nutritious rice → nutritious porridge → Multi cook → chicken soup → Automatic Sterilization (Steam Cleaning)
- If the button is pressed, repeatedly, the menu switches continuously in sequential order.
- In the cases of glutinous rice, sushi, mixed rice, GABA and Dried rice, the menu remains memorized once each cooking is completed, so for continuous use of the same menu, no selection of menu is required.

Start cooking by pressing Pressure Cook/Turbo button.
- You must turn lid handle to lock before cooking. Then press the pressure Cook/Turbo
- Unless lid handle is not turned to close, you get alarm with “ŒŒŒ”, and sound “turn lid handle to lock”.

Cooking thoroughly.
- The cooktime remaining on the display is shown from cooking thoroughly. The cook time is different relying on menu.
- Careful not to be burned in automatic steam outlet.

The end of cooking.
- When cooking is completed, warming will start with the voice “cuckoo completed glutinous”.
- When cooking ends, stir rice equally and immediately. If you don’t stir rice at once and keep it stagnant, rice will go bad and smell bad.
- If the lid handle is not working well, take out the steam completely out of inner pot by turning over pressure weight.
- While cooking, do not press cancel button.

</table>
| Turbo function for Glutinous rice | - Pressing twice “Pressure Cook/Turbo” twice will switch to quick cooking and shorten the cooking time. (It takes about 14 minutes when you cook the Glutinous rice for 2 persons.)  
- Use this turbo cooking function only for cooking rice for less than 6 persons.  
- The turbo cooking function is allowed up to 6 persons.  
- If you soak the rice in water for about 20 minutes before cooking the rice and then cook the rice in turbo cooking course, the rice will taste good. |

*After white rice turbo and cooking small servings, discard the water within water gutter.  
*In case of white rice turbo and smaller servings cooking, more water may stay compared with other menu.  
*Please refer to the cooking guide (Refer to page 72~80)

### How to do Automatic Sterilization (Steam Cleaning)

1. Put water until water scale 2, make sure to close and lock the cover.  
Method 1: After choosing automatic cleaning menu by pressing “Menu/Select” button, and then press “Pressure Cook/Turbo” button.  
Method 2: After choosing automatic cleaning function by pressing “Preset/AUTO CLEAN” button twice in standby mode, press “Pressure Cook/Turbo” button.

### How to cook with Rinse free

1. Put desired amount of Rinse free into the cooker body by measuring it with measuring cup, and pour water to meet glutinous water scale. (Rinse free can be cooked to min 2 servings to max 10 servings.)  
2. Stir evenly with scoop so Rinse free and water may mix properly, lock the cover, and after selecting Rinse free menu with Menu/Selection button, press Pressure Cook/Turbo button.  
*Note : Washed rice is cooked only with water poured with no separate washing, so they may experience the fine scorching phenomenon (melanoizing).  
*Note : Do not store washed rice in a humid place as it is vulnerable to humidity. In summer or rainy seasons, the rice may go bad or be inhabited by beetles, so when purchasing washed rice in the market, buy it by units of small pack.

### Dried rice cook function

- If you cook long stored rice or dried rice, they could be half-cooked. If using the old rice menu, you can get better taste.  
- The taste of rice will be different depending on storage of rice and water state.  
*you can add the “SOFT” time or “SWEET” time (Refer to page 48).

### Melanoizing effect

The cooked rice can be light yellow at the bottom of the oven, because this product is designed to improve pleasant flavor and taste. Especially, melanoizing is more serious at the Preset cooking than just “Cooking”.  
It does not mean malfunction.  
*When mixing other rice with Glutinous, Melanizing effect could increase more than “Glutinous cook” setting.
What is “MY MODE”?  
- Cuckoo’s patented technology based on variable circuit design. User can select the degree of “softness” and “glutinosity & tastiness” to meet a user’s desire.

MY MODE Function

- Longer “SOFT” Time : rice becomes soft and glutinous. (selectable in 4 steps)
- Longer “SWEET” Time : rice becomes tasty (selectable in 4 steps) [amelanizing will occur]
- Above 2 functions can be selected both or individually.

How to use “MY MODE”

To enter “Customized Rice Taste Setting Mode”, select the menu in which Customized Rice Taste is supported such as glutinous rice, mixed rice, glutinous rice, GABA, mixed rice, dried rice, rinse free and press the mode button for 1 second or longer. Then, you are going to enter “Customized Rice Taste Setting Mode” while hearing the voice saying “You’ve entered Customized Rice Taste Setting Mode. Select swelling and heating stage with Selection button, and press Set button.”

How to Use Cuckoo Customized Cooked Rice Taste

You can set the major cooked rice taste of customized cooked rice taste by entering Customized Cooked Rice Taste mode and pressing Mode button. At each press of Mode button, the major cooked rice taste will show up in the sequential order ‘Sticky Cooked Rice Taste –> Soft Cooked Rice Taste -> Soothing Cooked Rice Taste -> Soft and Soothing Cooked Rice Taste’.

1. “MENU” setting screen
   - Selected menu you want with menu / selection button and press the set button.

2. “MY MODE” setting screen
   - To enter Customized Rice Taste Setting Mode, select desired menu and press Mode button once for 1 second or longer.
   - Menu/Selection button will blink and Set, Pressure, Cook and Cancel buttons will turn ON.

3. Soft time control mode
   - Select desired swelling time by pressing the button.
   - Set button will blink, and Pressure Cook, Cancel and Menu/Selection buttons will turn ON.

4. Setting completed screen after
   - Set up desired customized rice tastes, and press Pressure Cook.
   - If you press Cancel or do not press a button within 7 seconds, the function will deactivate and return to the standby mode.

5. Soft and Sweet time control mode
   - Press Mode button once, and the display will change as in the figure. At this time, Soft Cooked Rice Taste 4th step will be selected.

6. Setting completed screen after
   - Press Mode button two times, and the display will change as in the figure. At this time, Soothing Cooked Rice Taste 4th step will be selected.

7. Sweet time control mode
   - Press Mode button three times, and the display will change as in the figure. At this time, Soft, Soothing Cooked Rice Taste will be selected.

*1. The rice becomes solid and glutinous.
*2. The rice becomes soft and well-raised rice.
*3. The rice becomes soft and glutinous.

Note: Rice taste number from 1 to 16 will be displayed on the display window.

The stage mark will show up as in the figure above on the display as much as the time set during setting swelling time and heating maintenance time, and the mark will continue to show up during cooking, reservation, keeping warm and reheating as well.

- Set-up customized cooking function is applied to glutinous, GABA, mixed, dried rice, rinse free.
- No need to set-up at every cooking.
- During cooking, warming and preset time cooking modes, “soft” and “sweet” time cannot be readjusted.

Cucuoo customized cooking function

While cooking you can control the heating temperature (both high an low) depending on, your preference.

Initialization is set up "         " get step by step as the case may be.
- High step : for cooking cereals, old rice and soft-boiled rice.
- Low step : for cooking the year’s crop of rice.

How to use Cuckoo Customized cooking function

If you press the mode button 5times, customized cooking function is setup. Select heating power by selection button. You can see all means with cuckoo customized cooking function on the display.

1. ‘MY MODE’ function may influence scorching or cooking quality. Ensure that cooking time is not changed, by children.
2. Default settings for soft rice and sweet rice is “1step” sticky rice.
3. Scorching of rice may occur by longet “SWEET” Time.

Cautions

1. ‘MY MODE’ function may influence scorching or cooking quality. Ensure that cooking time is not changed, by children.
2. Default settings for soft rice and sweet rice is “1step” sticky rice.
3. ‘MY MODE’ function may elongate cooking time according to set-up time.
4. Scorching of rice may occur by longet “SWEET” Time.

1. 'Cuckoo customized cooking function' applies to Glutinous, Turbo glutinous, Sushi, GABA, Mixed rice, Dried, Rinse free, nutritious rice collectively.
2. Set up the step of customized cooking function to taste. The scorch can occur when cooking in high step.
3. Cook is subject to be set differently depending on the percentage of water content and the condition of rice.
What is Germinated Brown rice?

- Brown rice has richer nutrients than polished rice. However, brown rice is rather tough and harder to be digested. By germination, the enzymes in the brown rice are activated, generating nutrients and become more digestible.

Tips to Buy Quality Brown Rice

1. Check the dates of harvest and pounding.
   - The dates should be within 1 year from harvest, 3 months from pounding.
2. Inspect rice with your eyes.
   - Check that embryo is alive
     - Rice surface should be light yellow and glazing. Whitely stirred up surface, or darkish colored Brown rice is not suitable for germination
     - Avoid fractured, not fully corned, or empty ear’s. Empty ear’s may generate odors during germination and bluish- nor corned Brown rice cannot be germinated.

Features of Germinated Brown rice

Germinated Brown rice increases nutrients and enhances taste which is a weak point of brown rice. Germinated Brown rice also improves digestion.

- Taste will be greatly enhanced.
- Digestive and rich in nutrients.
- Diabetic hormone is generated improving digestion.
- Good as a health food for children or students.
  - Rich with dietary fiber.
- Germinated brown rice has rich GABA (Gamma Amino Butryc Acid)
  - GABA promotes metabolism in liver and kidneys, suppresses neutral fat, lowers blood pressure, promotes metabolism in brain cells - these effects have been proven by medical science.

Comparison of Germinated brown rice’s nutrition and Glutinous rice’s (6 hours) nutrition.

- Phytic acid 10.3Times
- Ferulic acid 1.4Times
- Gamma-orizanol 23.9Times
- Gamma-aminobutyric acid
- Inositol 10Times
- Food fiber 4.3Times
Using “GABA” Menu

1. In order to promote germination, soak brown rice for 16 hours in water.

   Method of Pre-germination
   - Put washed brown rice in an appropriate container, pour sufficient water to soak the rice.
   - Pre-germination shall not exceed 16 hours. Make sure to wash rice clean with flowing water before using “GABA” menu. Be careful that hard washing may take off embryos which generate the germination.
   - Unique smell may be generated according to the soaking time of pre-germination.
   - When pro-germination has been completed, wash the rice and put in inner pot (Oven). Pour appropriated volume of water, and use “GABA” menu.
   - In summer or hot temperature environment odor may be generated. Reduce germination time and wash clean when cooking.

2. Set the Lock/Unlock handle at “lock”, press ‘Menu Selection’ button to select “GABA”.

3. Press “Set” and “Menu Selection” buttons to set time.
   1. Pressing “” button changes germination time by 2 hours.
   2. Pressing “” button changes germination time by 2 hours.
   3. “GABA” time can be set up by 0, 2, 4, 6 hours.

   If GABA time is set “0” hours, pressing “Pressure Cook” button will start cooking immediately.
   To cook without germination or cooking germinated Brown rice, set the time at “0”.

4. Press “Pressure Cook/Turbo” button.

   If ‘Pressure Cook/Turbo’ button is pressed or ‘Set’ button is pressed after ‘Pressure cook/Turbo’ button is pressed, GABA germination for given time will begin and rice cooking will start right after the germination process.
   During “GABA” mode, “cook” indicator will show the remaining time and will be displayed in minutes with the “3H” mark going around clockwise.

Precautions for “GABA” Cooking

1. If smaller germ is preferred, omit pre-germination process. Select “GABA” menu, set-up appropriate germination time, and start cooking (nutrient ingredients do not vary significantly by the size of germ).

2. During hot seasons, longer germination time may generate odor. Reduce germination time.

3. GABA cooking is allowed up to 6 persons.

4. City water can be used for germination. However, spring water is recommended. Germination may not be properly performed in hot or boiled water even after cooling.

5. Germination rate, germ growth may differ by the Brown rice type, condition or period of storing, etc.
   - Germinated brown rice is sprouted brown rice. Germination rate and growth may differ by the Brown rice type.
   - The brown rice should be within 1 year from harvest, and not long since pounded.

6. In GABA mode, preset on 4H, 5H, 6H may not be possible. If you want to preset the GABA, set up “0H”. (See the page 53)

7. The taste of rice could be different as depending on a kind of brown rice. Use customized taste function or control the amount of water for your taste. (Refer to page 48~49)
How to use the Multi-cook and preset the time

1. Turn the top handle to “Lock,” press menu to select the Multi-cook.
   - Set button will blink, and Menu/Selection, Cancel and Pressure Cooking buttons will turn ON.
   - When selecting Multi-cook, the display indicates cooking time to be 20 minutes.

2. Press “Set”, “Menu/Selection” button to set up the time.
   - It says after setting cooking time with selection button press the cook button.
   - Menu/Selection button will blink, and Cancel and Pressure Cooking buttons will turn ON.

3. Press “Pressure Cook” button.
   - Pressure Cook button will blink, and Menu/Selection and Cancel buttons will turn ON.
   - Press the Pressure Cook/Turbo button and the Multi-cook will start. If the Multi-cook starts, the display shows the ‘cooking mark’ and remaining minutes.

4. Use the preset time of Multi-cook as following instruction.
   1. Check the present time.
   2. Turn the Lock/Unlock handle to “Lock” and press the “Timer” button.
   3. Press the Menu/Selection or Min/Heat to preset time.
   4. Press menu selection button to select the Multi-cook.
   5. Set up the cooking time for pressing menu selection button, Min/Heat button.
   6. Press the “Timer” or “Pressure Cook” button.
HOW TO PRESET TIMER FOR COOKING

How to preset timer for cooking

How to use timer function

1 Check if the current time and the menu are correct.
   - Refer to page 42 for the time setting.
   - If the current time is not set correctly, the presetting time will also be incorrect.
   - Make sure not to confuse AM and PM.

2 Press the "Preset/AUTO CLEAN" button.
   - If you press 'Preset/AUTO CLEAN' button once, 'Preset1' mode will be activated. If you press the button twice, 'Preset2' mode will be activated.
   - The default time of 'Preset1' is AM 6:30 and 'Preset2' is PM 7:00.
   - If you push timer button, timer screen will be blinked.
   - In GABA mode, preset on "DH" is possible.
   - If you want to preset "Timer" while keeping warm, cancel keep warm and preset the "Timer"

3 Preset the time.
   - "Set" button will blink, and "Menu/Selection", "Cancel" and "Pressure Cook" buttons will turn ON.
   - In case of setting up timer while warming, 10min increase by pressing " " button
   - Please set up timer after canceling warming 10min decrease when you press " " button
   - If you keep pressing, it can be changed continuously.
   - Please be careful not to change from AM to PM.

4 Select menu with "Menu/Selection" button
   - If you select "Timer" menu with selection button, it says "Please, press the "Cook/Turbo" button.
   - "Set button" will blink, and "Menu/Selection", "Pressure Cook" and "Cancel" buttons will turn ON.
   - In case of menu with "Customized Rice Taste" such as glutinous rice, mixed rice, GABA, old rice, nu rung ji and washed rice, "Mode" button will turn ON.

5 Press "Pressure Cook" button.
   - "Pressure Cook" button will blink, and "Menu/Selection" and "Cancel" buttons will be turned ON.
   - It says that preset cook for glutinous is booked
   - Preset cook will be completed at the timer
   - Once cook is completed with preset time, preset time is stored in the memory. Don’t need to set up time again.
   - If a small amount of rice is cooked, cook could be finished earlier than time you set up.
HOW TO PRESET TIMER FOR COOKING

Precautions for preset cooking

1. **In case of preset cooking**
   - If the rice is old and dry, the result of the cooking may not be good.
   - If the rice is not well cooked, increase the amount of water by about half-scale.
   - If the preset time is longer, melanoizing effect could be increased.
   - Washed rice included precipitated starch, scorching may occur in case of preset cook.
     To reduce scorching, cook washed rice by rinsing in running water or reduce cooking amount.

2. **The change of preset time**
   - Press “cancel” button for more than 2 seconds and restart it to change the preset time.

3. **In case preset time is shorter than cooking time in the following table, cooking starts immediately**
   - If set time is shorter than presettable time, cooking will start immediately.

4. **In case the preset time is over 13 hours.**
   - “13H0” will be displayed and the preset time will be changed to 13 hours automatically.
     ex) If cooking is preset to AM07:00 of the following day at PM5:00 of the day, where preset time is 14 hours,
     “13H0” will be displayed, and preset time automatically changes to AM06:00. (Preset time is 13 hours)

※ If the preset time is over 13 hours, it can cause bad smell. The limited preset time is set up less than 13 hours
because the rice spoils easily during the summer time
※ When you want to finish presetting P.M 12:00, preset P.M 12:00
※ Use this function when you want to finish cooking between 1 hour to 13 hours based on the preset time
※ If you press the set button to check the present time during the preset cooking function, the preset time will be
displayed for 2 second.

TO KEEP COOKED RICE WARM AND TASTY

Having a meal

▶ If you want to have warm rice, press the “Reheat/keep” warm. Then “Reheat/Keep” warm function will be started and you can eat fresh rice in 9 minutes.

**<Keep warming>**

![Image](3H Indicates the time elapsed as warming time.)

**<Reheating>**

![Image](The lamp blinks and “ ” indicator will show the reheat remaining time displayed in minutes with the mark going around clockwise.)

**<Finishing reheat>**

![Image](When the reheat finishes with the beep sound, keep warming function will be operated and show the time elapsed.)

**<Present warning temperature>**

![Image](Intensive reheating”mode is available to avoid discolored, dried, or sour smelling rice. The mode can be set/cancel by pushing “Keep warm/Reheat” button then ‘Set’ button in the ‘Customized reheating’ setting mode. (Please refer page 56.) Please set the mode as needed. (Default option is set to the normal reheating mode.)

‼ If you change the present time during warming, see the page 42.  
▶ The frequent use of the “Reheat” function may cause the cooked rice to be discolored or dried. Use it once or twice per day.  
▶ If a separate heating appliance or gas burner is used to cook rice, put the cooked rice into the cooker and press the “Keep Warm/Reheat” button to keep the rice warm. At this time, “” is shown on the display. (Like this, transferring hot rice to a cold cooker may cause the rice to be discolored or develop an odor)  
▶ After 24 hours of heat preservation, the lamp of heat preservation time lapse blinks, indicating that long time has passed in heat preservation condition.  
▶ In case the lid combining hand grip is in open status during heat preservation, the cooker does not go for reheating. For reheating, lock the lid combining hand grip to (Locked) position, and then press Keep warm/reheat button.  
▶ If the lid combining hand grip is turned to open status during reheating, function display will show “”. At this time, reheating will be cancelled, and heat preservation will proceed.

Cautions for Keeping Warm

<table>
<thead>
<tr>
<th>It would be hard to open the lid during warming or finished cooking right after, therefore at this time pull the pressure weight aside once and exhaust the steam perfectly.</th>
<th>It would be better to warm the rice for less than 12 hours because of odors and color change. The cooked rice, which cooked by pressure cooker is more prone to changing color than the rice cooked by general cooker. During warm mode, the rice can arise and turn white and rise. In this case, mix the rice.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Make sure the handle must be located on “Lock” during warming or reheating.</td>
<td>The mixed and brown rice cannot be in such good condition as white rice while in warm function due to their characteristics. Therefore do not keep mixed and brown rice in function for a long period of time.</td>
</tr>
<tr>
<td>It is recommended to evenly stir the cooked rice after cooking. The rice taste is improved. (For a small quantity of rice, pile up the rice on the center area of the inner pot to keep warm)</td>
<td></td>
</tr>
<tr>
<td>Do not keep the scoop inside the pot while warming the rice. When using a wooden scoop it can create serious bacteria and odors.</td>
<td>Do not mix small amount of rice or leftovers with the rice under keeping warm. Doing so may cause an odor. (Use a microwave oven for the cold rice.)</td>
</tr>
</tbody>
</table>
Controlling method of warming temperature

If the temperature in the oven is not proper, it smells bad and changes rice color even though it is cleaned frequently and boiled up. Temperature needs to be set.

1. If too much water is spilled out when you open the lid: Press “Menu/Selection” button to raise the setting mode.
2. If the edge of rice is too soft: Press “Menu/Selection” button to reduce the setting mode.

Change of temperature

1. When you smell bad odors and the rice is too watery: The keep warm temperature is too low.
   In this case, increase the “Keep Warm” temperature by 1~2℃.
2. When the rice has a yellowish color or is too dry: The keep warm temp is too high.
   In this case decrease the “Keep Warm” temperature by 1~2℃.

How to operate My Mode function.

Use it while opening the lid when there is too much water or rice becomes too soft.

1. In standby mode, push the “mode” button 4 times. The voice says that it is programmed warming mode, control the temperature you want.
2. Press “Menu/choice” button to change as the picture(up)
   - “Set” button will blink, and “Mode”, “Menu/Selection” and “Cancel” buttons will be turned ON.
   - To switch the functions continuously, keep pressing the button.
3. Select the menu you want, then the press the “My Mode” button and set-up time will be automatically entered with a buzzer. (If you press the “Cancel” button or do not press a button within 7 seconds, the function will be cancelled and returned to standby mode.)
4. Press “Menu/choice” button as the picture (down)
   - “Set” button will blink, and “Mode”, “Menu/Selection” and “Cancel” buttons will be turned ON.
   - To switch the functions continuously, keep pressing the button.

Note: The reference temperature programmed when the product is shipped may differ from the Instruction.

1. When you smell bad odors and the rice is too watery: The keep warm temperature is too low.
   In this case, increase the “Keep Warm” temperature by 1~2℃.
2. When the rice has a yellowish color or is too dry: The keep warm temp is too high.
   In this case decrease the “Keep Warm” temperature by 1~2℃.
How to activate “Sleeping” mode.

- When keeping rice warm for a long time, set up the temperature low to prevent the following quality of rice: smelly, dry, change of color; from PM10:00 ~ AM 04:00.

- How to set up

  1. Hold “the mode” button for one second, then press the “mode” button 6 times to set up sleeping mode. If sleeping mode is not shown, keep on pressing the “mode” button until it is heard or displayed.

  2. When you are in sleeping mode, it says “After selecting or canceling sleeping mode, press the set button.” At this time, Menu/Selection will blink, and the Mode, Set, and Cancel will turn on.

  3. Press the “Menu/Selection” button until you hear or see “Sleeping mode”, then Press set. You will see nothing surrounding the rice cooker on the screen.

  4. In the Sleep/Warm mode, if you press the Cancel button, the Voice message will state: “Time is over. The function setting has been canceled.” If no button is pressed for more than 7 seconds, you’ll return to the Standby mode.

- How to release

  1. Hold “the mode” button for one second, then press the “mode” button 6 times to set up sleeping mode. If sleeping mode is not shown, keep on pressing the “mode” button until it is heard or displayed.

  2. When you are in sleeping mode, it says “After selecting or canceling sleeping mode, press the set button.” At this time, Menu/Selection will blink, and the Mode, Set, and Cancel will turn on.

  3. Press the “Menu/Selection” button until you hear “Sleeping mode has been canceled”, then Press set. You will see rings around the rice cooker on the screen.

  4. In the Sleep/Warm mode, if you press the Cancel button, the Voice message will state: “Time is over. The function setting has been canceled.” If no button is pressed for more than 7 seconds, you’ll return to the Standby mode.

- If you need to keep the rice warm during sleeping, do not use this function. This function makes the rice cooler than normal. In summer, the rice can be spoiled and may smell bad because of high temperature. If possible, do not use the “Custom-made warming” mode while sleeping.

- This function is set up as cancel state.

When odors are rising during the warming mode

- Clean the lid frequently. It can cause bacteria and odors.

- Even though exterior looks clean, there might be germs and it can cause odor so please be sure to use automatic sterilization (steam cleaning) menu for cleaning. Clean the inner pot completely after automatic cleaning function is done. (refer to 39)

- After you cook soups and steamed dishes, clean the inner pot properly to prevent rice from smelling.
What is power saving of “Standby” mode?

- A little electricity is wasted if power cord is not plugged in. It is called manual way as standby electric power. The power saving of “Standby” mode is technology which minimises electricity consumption.

Manual Method

- How to start power saving
  Push Cancel button for 3seconds at waiting state saving power function is set up.

- How to end power saving
  method 1) Push any button then it will be returned to waiting mode.
  method 2) If lid handle is turned to open or close, power saving mode will be canceled and back to waiting state.

Automatic Method

If the standby time is chosen as a number without “0” at the automatic power saving mode, the automatic saving power function will be operated. If you move lid handle or push any button before passing waiting time, the waiting time which is reduced will go back to the setting.

- How to set up
  1. If you “Push” mode button 7times at the standby state, automatic power saving mode is set up.
  2. When automatic power saving mode is set up, it says that this is automatic power saving mode. Press the “Set” button after selecting waiting time.
  3. If you select ’0’minute with “Menu/Selection” button, automatic power saving will be canceled. After setting up waiting time you want, press the “Set” button.
  4. Without pressing any button within 7seconds or pushing “Cancel” button. Automatic power saving function will be canceled and back to waiting mode.
How to set Lock buttons

- Lock can be set for touch button to prevent malfunction during cleaning with touch button or by children touch.

**Setting Method**

1. Button will be locked if “Set” button is pressed for 3 seconds or longer during cooking, presetting, warming, reheating or in standby condition.

2. When button is locked, a voice will say “Button lock is selected.” At this time, button lock is displayed on the screen.

**Cancelling Method**

1. To cancel button lock, press “Set” button for 3 seconds or longer on locked the button.

2. “Lock” sign on the display disappears when button lock is cancelled, a voice will be saying “Button lock is cancelled.”

*Note: Any button other than “Set” button is pressed while button lock is set, buzzer will sound.

*Note: Desired function can be set after cancelling button lock by pressing “Set” button for 3 seconds or longer.

*Note: Button lock function is cancelled automatically when the power is off even though the button lock function is already set.

COOKING GUIDE

Tasty Rice

Boiled Rice

Ingredients
Rice 4 cups
*The "cup" in ingredients means a measuring cup in the rice cooker. 1 cup (180 cc) is for one person.

Recipe
1. Put clean-washed rice in the inner pot and pour water by water graduation 4.
2. Firstly, lock the cover, and select Glutinous in the menu, and then push the Pressure Cook/Turbo button.
3. Mix rice when cooking is finished.

Reference
According to graduation on the inside of inner pot, when cooking with newly harvested rice the amount of water should be less than the graduation, and when cooking with old rice the amount of water should be more than graduation. Control the amount of water according to preference of each family!

Pea Rice

Ingredients
3 cups of rice, 1/2 cup of peas, 1 tablespoon of sake, 15 teaspoons of salt
*Boil pea before cooking.

Recipe
1. As for peas, add salt into them, wash them clean and extract water from them.
2. Put clean-washed rice into My Caldon, season them with sake and salt, and pour water up to white rice water graduation 3.
3. Place peas on top of them, press MENU button after locking the lid, select Glutinous, and press Pressure Cook/Turbo button.
4. When the cooker comes to Heat Preservation mode, mix the cooked grains properly.
5. Store peas as follows
If peas and kidney beans etc. are stored in the refrigerator, they change in color and discolor in freshness fast. Therefore, immediately after getting the materials from the market, blanch them slightly, place them in the refrigerator, and whenever they are needed, take them out to use them in natural color and freshness.

Boiled Barley

Ingredients
2 cups of rice, a cup of barley

Recipe
1. Prepare boiled barley with a cup of barley.
2. Wash rice clean, and after putting it in My Caldon along with boiled barley, pour water up to white rice water graduation 3.
3. Lock the lid, press MENU button, and after selecting Mixed Rice, press Pressure Cook/Turbo button.
4. Once the cooker comes to Heat Preservation mode, mix the cooked grains properly.

Mixed Rice

Five-grain Rice

Ingredients
Rice 1.5 cup, millet 1/3 cup, glutinous rice 1/2 cup, red beans 1/3 cup, sorghum 1/3 cup and salt 1 teaspoon

Recipe
1. Wash rice, glutinous rice, millet, and sorghum clean and soak them with a landing net.
2. Boil red beans on high heat, and then put only water in which red beans were boiled in another bowl.
3. Put glutinous rice, millet, and sorghum on a landing net, put the inner pot, and pour water in which red beans were boiled and water by white rice water graduation 3.
4. At the boiled red beans and then lock the cover. After selecting Mixed Rice in the menu, push the Pressure Cook/Turbo button.
5. Mix rice when cooking is finished.

Reference
Oriental medicine calls red beans as Jackedou which holds moisture, removes steam and discharges accumulated pus as well as relieving edema by making thirst and diarrhea stopped and bladder empty.

Baked Fresh Germinated Brown Rice

Ingredients
Brown rice 4 cups

Recipe
1. Put washed brown rice into the inner pot, and then put it into the inner pot and pour water by water graduation.
2. After locking the cover and choosing GABA in the menu, push the button after setting up the time of germinated brown rice for 3 hours.
3. Mix rice when cooking is finished.

Reference
- Control the time of germinated brown rice according to each preference.
- When cooking with germinated brown rice set up germinating time for 0 hour if you want to have 100% boiled brown rice without germination.

Boiled Brown Rice with Red Beans

Ingredients
Brown rice 1 cup, rice 2 cups and red beans 1/3 cup

Recipe
1. Boil red beans until it becomes soft, but not to break the shape of red beans and separate it from water.
2. Wash brown rice clean, and put it in the inner pot. Put the boiled red beans after pouring water by germinated brown rice water scale 3.
3. After locking the cover and choosing GABA in the menu, push Pressure Cook/Turbo button after setting up the time of germinated brown rice for four hours.
4. Mix rice when cooking is finished.
Well-being Boiled Rice

Green Tea Rice Blended with Chicken Chest Flesh

Ingredients
- 2 cups of brown rice, 3g of green tea leaf, 10g of green tea powder, 4 capitals of chicken heart, a little bit of brown sugar, a little bit of salt, a little bit of pepper, 2 tablespoons of oil, a little bit of sauce, a little bit of mayonnaise

Recipe
1. Wash brown rice and put in a pot, then put in 1.5 cups of water. Bring to a boil in a pot, then turn off the heat and let it steam for 10 minutes.
2. Cook chicken heart, add water, and let it steam for 20 minutes.
3. Mix with chicken heart, then add sauce.
4. Serve in a large bowl.

Saessak Bibimbap (rice with sprout and vegetables)

Ingredients
- 2 cups of brown rice and some vegetables
- 2 tablespoons of soy sauce
- 1 tablespoon of sesame oil
- 2 teaspoons of garlic
- 1 tablespoon of rice vinegar

Recipe
1. Wash brown rice and put in a pot, then put in 1.5 cups of water. Bring to a boil in a pot, then turn off the heat and let it steam for 10 minutes.
2. Mix vegetables, add water, and let it steam for 20 minutes.
3. Mix with vegetables, then add sauce.
4. Serve in a large bowl.

Mushroom Tian

Ingredients
- 2 cups of brown rice, 20g of brown gravy sauce, a little bit of salt, 2 sheets of sausages, 1/3 cup of pumpkin, a pack of sliced mushrooms
- Mushroom may be chosen as preferred in the family.

Recipe
1. Wash brown rice and put in a pot, then put in 1.5 cups of water. Bring to a boil in a pot, then turn off the heat and let it steam for 10 minutes.
2. Mix vegetables, add water, and let it steam for 20 minutes.
3. Mix with vegetables, then add sauce.
4. Serve in a large bowl.

Nutritious Rice

Nutritious Rice

Ingredients
- Rice: 1 cup of fresh rice, 4 eggs, 3 tablespoons of soy sauce, 1 tablespoon of brown sugar, 1/2 teaspoon of salt, 1/2 teaspoon of pepper
- Vegetables: 1 cup of fresh vegetables, 1 teaspoon of salt, 1/2 teaspoon of pepper

Recipe
1. Wash rice and let it steam for 10 minutes.
2. Mix vegetables and salt, then add pepper.
3. Serve in a large bowl.

References
When nutritious rice is cooked, there may be differences in malnutrition according to the conditions of the body (taste, freshness, cooking) after cooking is completed. Therefore, control the amount of food according to your preference.
Nutritious Rice

**Assorted Bibim Bap**

- **Ingredients**
  - 4 cups of rice, 200g of oyster mushroom, 100g of bamboo shoot, 10g of garlic
  - Seasoning Sauce: 1 tablespoon of soy sauce, 1/2 teaspoon of pepper powder, 2 teaspoons of ground sesame mixed with salt, 2 teaspoons of minced spring onion, 1/2 teaspoon of minced garlic and 1 teaspoon of sesame oil

- **Recipe**
  - As for oyster mushroom, tear the mushroom to a nice shape to eat after washing, and regarding bamboo shoot, remove the white part between the comb by parboiling them slightly, and slice them by highlighting the comb shape.
  - As for garlic, peel them by friying after adding a little bit of oil, or by rubbing with spring onion while boiling for 2-3 minutes in boiling water.
  - Put well washed rice into My Cuckoo, and after boiling water up to white rice after graduation 4, put 1 tablespoon of minced rice.
  - Put the oyster mushroom, bamboo shoot and garlic prepared in the above, lock the lid, and after selecting Nutritious Rice by pressing Menu button, press Pressure Cook/Turbo button.
  - Once cooking is completed, put the prepared seasoning sauce and enjoy the food by mixing together.

- **References**
  - It is important to cook porridge according to the rice and cooked down porridge or rice porridge is not tasty.

6. Lock the lid, press MENU button, and after selecting [Chicken Soup], press Pressure Cook/Turbo button.

References
Pouring too much water may cause soup water to gush out during discharge of pressure after completion of cooking. Take caution to prevent physical injury.

How to Select Soft and Delicious Chicken
Relatively soft and mild in taste and easily digestible and absorbable, chicken grows in demand. While beef and pork require long maturing time like 5 to 16 days, chicken is most soft and delicious in the morning of the day after it is slaughtered. And thus, most delicious chickens are the ones in the dinner table served in the store that slaughters live chicken at possible, or slide after being slaughtered in the morning.

As for choosing chicken from among live ones, the ones with cloudy eyes or protruded anus are sick, as choose the ones whose leg muscles are chunky and light. In case of buying already slaughtered chicken in whole, the ones with cleanly visible transparent or light yellow hair roots are fresh. Delicious are the ones of 1 year or less old after birth, and the more the soft cutlares are found when slender bone tip is touched, the younger the chicken is.

When buying parts of chicken, choose the ones with tender and glossy flesh. If skin is properly attached and fats are properly attached between flesh and skin, color should be smooth.

* Excessive intake of high protein tonic food may cause acidification of body fluid, aging of cells and increase of fatigue. Eat vegetables and fruits always when eating chicken.

Baby Food

Sweet Potato & Apple Porridge

Ingredients
- Sweet potato 100g, apple 70g, water 2 tablespoons and some honey

Recipe
1. Peel the skins of apple and sweet potato and cut them into slices.
