Double Motion Packing is CUCKOO’s unique and innovative patented technology that reduces the general packing’s minimal but gradual steam leakage considerably. The Double Motion Packing has a two-layer structure: an airtight layer and a support layer. Thanks to the improved airtightness, you can enjoy fresh and tasty rice longer.

Double Motion Packing is a completely new packing realized by CUCKOO. Thanks to its advanced concept and technology, once the lid is closed, the Double Motion Packing starts its first process, “Move-Airtight,” that improves airtightness by locking both the airtight layer and the support layer. When the cooking starts and the inside pressure increases, its second process, “Move-Support,” locks up the airtight layer even more and increases the freshness and full-flavor of the rice.

Thank you for choosing our CUCKOO Double Motion Packing product. Enjoy rice that stays fresh and full of flavor for a long time.
Now: Stainless even on the inside!
The full stainless-steel cover is easy to clean and helps to keep rice fresh and tasty. CUCKOO’s full-stainless cover not only facilitates cleaning and improves hygiene. Due to its high temperature, pressure, and steam you can enjoy rice that remains fresh and tasty longer than ever before.
