IMPORTANT SAFEGUARDS

When using electrical appliances, basic safety precautions should always be followed, including the following :

- Read all instructions.
- Do not touch hot surfaces. Use handles or knobs.
- To protect against electrical shock do not immerse cord, plugs in water or other liquid.
- Close supervision is necessary when this appliance is used by or near children.
  This appliance is not intended for use by young children or infirm persons without supervision.
  Young children should be supervised to ensure that they do not play with the appliance.
- Unplug from outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions, or is dropped or damaged in any manner.
  Return appliance to your nearest authorized service facility for examination, repair, or electrical or mechanical adjustment.
- If the supply cord is damaged, it must be replaced by a special cord or assembly available from the manufacturer or its service agent.
- The use of accessary attachments not recommended by the appliance manufacturer may cause injuries.
- Do not use outdoors.
- Do not let cord hang over edge of table or counter, or touch hot surfaces.
- Do not place on or near a hot gas or electric burner, on in a heated oven.
- Extreme caution must be used when moving an appliance containing hot oil or other hot liquids.
- Always attach plug to appliance first, then plug cord into wall outlet.
  To disconnect, turn any control to “off”, then remove plug from wall outlet.
- Do not use appliance for other than intended use.
- Do not obstruct the steam vent hole with any articles, e.g.a piece of cloth.
- Do not place the inner pot directly over flame for cooking.

SAVE THESE INSTRUCTIONS.

PRECAUTION A PRENDRE

Lors de l'utilisation de tout appareil électrique, il est toujours recommandé de prendre certaines précautions, dont les suivantes :

- Lire toutes les instructions
- Eviter de toucher aux surfaces chaudes. Toujours utiliser les poignées ou les anses.
- Afin de prévenir tout risque de choc électrique, ne pas immerger les cordons, les prises électriques ou l'appareil dans l'eau ou tout autre liquide à l'exception du panier.
- Ne jamais laisser des enfants utiliser l'appareil sans surveillance.
- Après usage et avant le nettoyage, toujours débrancher l'appareil. Laisser refroidir avant de retirer des pièces ou de les remettre en place.
- Ne jamais utiliser l'appareil si sa prise électrique ou son cordon est endommagé ou après avoir constaté une défectuosité ou des dommages.
- Le cas échéant ce câble doit être remplacé par le fabricant, son service après vente ou une personne de qualification similaire afin d'éviter tout danger.
- L'utilisation d'accessoires non recommandés par le fabricant peut représenter un risque de dommages.
- Ne pas utiliser l'appareil à l'extérieur.
- Ne pas laisser le cordon pendre d'une table ou d'un comptoir, ni le mettre en contact avec une surface chaude.
- Ne pas placer l'appareil sur le dessus ou à proximité d'un appareil de chauffage, ni dans un four chaud.
- La plus grande prudence est de mise lors du déplacement d'un appareil contenant tout liquide chauffé.
- Toujours brancher le cordon d' alimentation à l'appareil avant d'en brancher la fiche dans une prise secteur. Avant de débrancher, couper le contact, puis retirer la fiche de la prise secteur.
- N'utiliser l'appareil qu'aux fins recommandées.
- Ne pas obstruer l'autocuiseur avec du textile.
- Ne pas mettre le panier au contact direct d'une flamme.

CONSERVER CE MANUEL

ADDITIONAL SAFEGUARDS

- Avoid touching hot parts : outer lid, inner pot, inner lid and especially the steam vent hole.
- Do not switch on when the main body is empty.
- Make sure that heating plate and the magnetic switch are clean and dry whenever putting the inner pot into the cooker.
- Do not use sharp instruments to clean the inner pot as these will damage the non-stick coating.
- A short power-supply cord is to be provided to reduce the risk resulting from becoming entangled in or tripping over a longer cord.
- Longer detachable power-supply cords or extension cords are available and may be used if care is exercised in their use.
- This appliance is intended to be used in household and similar applications such as :
  - staff kitchen areas in shops, offices and other working environments;
  - farm houses;
  - by clients in hotels, motels and other residential type environments;
  - bed and breakfast type environments.

SHORT CORD INSTRUCTIONS/SPECIFICATIONS

Note : A. A short power-supply cord (or cord set) is to be provided to reduce the hazards resulting from becoming entangled in or tripping over a longer cord.

B. Longer cord set or extension cords are available and may be used if care is exercised in their use.

C. If a long cord set or extension cord is used.

(1) the marked electrical rating of the cord set or extension cord should be at least as great as the electrical rating of the appliance.

(2) if the appliance is of the grounded type, the extension cord should be a grounding-type three-wire cord, and

(3) the longer cord should be arranged so that it will not drape over the counter top or tabletop where it can be pulled on by children or tripped over accidentally.

CAUTION : During use, the internal parts of the rice cooker and the area around the steam vent are **HOT. Keep out of reach of children to avoid possible injury.**

CAUTION FOR SAFETY

- The following must be observed to use the product safely and correctly to prevent accidental and dangerous situations.
- 'Warning' and 'Caution' are different as follows.

⚠ Warning	This means that the action it describes may result in death or severe injury.
⚠ Caution	This means that the action it describes may result in injury or property damage.

- ⚠ This sign is Intended to remind and alert that something may cause problems under the certain situation.
- Please read and follow the instruction to avoid any harmful situation.
- ⃠ Indicates a prohibition.
- ❗ Indicates an instruction.

⚠ Warning ⃠ (Do not)

Do not use the cooker near hot things such as stove, gas stove or direct ray of light.

- It can cause an electric shock, fire, transformation or discoloration. Please check the power cord or plug frequently.

Please pay careful attention not to get any water or chemicals on the cooker.

- It can cause an electric shock or fire.

Keep the cooker out of children's reach.

- It can cause bums, electric shock or injury.

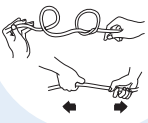
Do not sprinkle water on the cooker.

- It can cause an electric shock or fire.
- If it contacts water, please separate power cord and contact dealer or service center.

Do not over unplug and plug the power cord over and over.

- It can cause an electric shock or fire.

Do not bend, tie or pull the power cord by force.



- It can cause an electric shock or short circuit resulting in fire. Please check the power cord and plug frequently.

Keep your hand or face away from the steam outlet.

- It can cause burns.
- Especially keep it out of children's reach.

Do not open the lid while in heating and cooking.

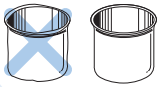
- It can cause burns.

Warning (Do not)

Use a single socket with the rated current above 15A.

- Using several lines in one socket can cause overheating resulting in fire. Please check the power cord or plug frequently.
- Use an extension cord with a rated current above 15A.

Do not use pots that are not designed for the cooker. Do not use abnormal pot and do not use without the inner pot.



- It can cause an electric shock or fire.

Do not use it without the inner pot.

- It can cause an electric shock or malfunction.
- Do not pour rice or water without the inner pot.
- If rice or water gets in then do not turn the product over or shake it, please contact the dealer or service center.

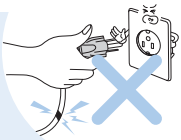
Do not alter, reassemble, disassemble or repair.

- It can cause fire, electric shock or injury.
- For repair, contact dealer or the service center.

Do not place the product near dusty places or near chemical substances.

- Do not place the product near combustible gas or near inflammables.
- It can cause an explosion or fire.

Do not use damaged power cord, plug or loose socket.



- Please check the power cord frequently for damage.
- Serious damage can cause electric shock or fire.
- If the plug is damaged, contact the dealer or service center.

Do not use on a rice chest or a shelf.

- Do not wedge the power cord between furniture. It can cause an electric shock resulting in fire. Please check the power cord or plug frequently.
- When using on furniture, automatically released steam can cause damage, fire, and an electric shock.

Don't spray or put any insecticide or chemicals on the cooker.

- It can cause an electric shock or fire.
- In case cockroach or any insects get inside of the cooker please call a dealer or a service center.

Products such as metal rods inside. Do not insert alien substance.

- It can cause an electric shock or fire.

Do not change, extend or connect the power cord without the advice of a technical expert

- It can cause an electric shock or fire.

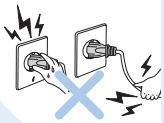
Do not move the product by pulling or using the power cord.

- Electric short might cause fire.

CAUTION FOR SAFETY

Warning **(Remember)**

Do not plug or pull out the power cord with wet hands.



- It can cause an electric shock.

Be careful that both the plug and power cord are not to let animal bite or to be shocked by sharp metal materials.

- Damages by impact can cause an electric shock or fire. Please check the power cord or plug frequently.

Remove a foreign substance on the cord and plug with a clean cloth.

- It can cause fire. Please check the power cord and plug frequently.

Do not place heavy things on the power cord.

- It can cause an electric shock or fire. Please check the power cord and plug frequently.

Be careful not to harm your hand when opening the cover.

- Do not leave the cover opened. It might cause accident.

Clean any dust or alien substance off the temperature sensor, heating plate and inner pot.

- It can cause a system problem or fire.

Caution **(Do not)**

Do not touch the metallic surface of the inner pot and heating plate after cooking or warming.

- It can cause burns.

Do not use over the maximum capacity.

- It can cause overflow or breakdown.
- Do not cook over stated capacity for cooking of chicken soup and congee.

Do not cover the steam outlet with a duster, a towel or a pron, etc.

- It can cause a transformation or a breakdown.

Please pull the plug out when not in use.

- It can cause electric shock or fire.
- Use AC 120V only.

When warming, please close the cover and turn on the power.

- It may cause rice discolor or/and rice to stink.

If possible, only use warming function when cooking white rice. Other foods are easily discolored.

Take out the spatula before warming.

- It may cause rice discolor or/and rice to stink.

CAUTION FOR SAFETY

Caution (Do not)

Don't use for various purpose for inner pot. and do not heat up the inner pot on the gas stove.

- It can cause the deformation of the inner pot.
- It can cause to spill the inner coating.

Please use the cooker for it's intended purpose.

- It can cause malfunction or smell.

Do not drop or impact the cooker.

- It can cause a safety problem.

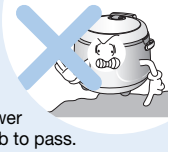
Do NOT use near wall or furniture. Otherwise wall or furniture may be damaged, discolored or deformed due to vapor or heat.

- When using in drawer cabinet etc, ensure that no vapor enters it.

Use product on a flat surface. Do not use on a cushion. Please avoid using it on an unstable location prone to falling down.

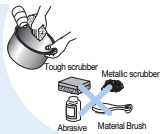
- It can cause malfunction or a fire. Please check the power cord and plug frequently.

Do not place on rough top or tilted top.



- It can cause bums or malfunction.
- Be careful to install the power cord which does not disturb to pass.

Please call customer service if the inner pot coating peels off.



- Inner pot coating may wear away after long use.
- When cleaning the inner pot, do not use tough scrubber, metallic scrubber, brush, abrasive metallic etc.

Caution (Remember)

Please contact dealer or service center if there is a smell or smoke coming from the cooker.

- First pull out the power cord. And contact dealer or the service center.

Please pull out the plug when not in use.

- It can cause an electric shocks or fire.

Do NOT pull out or damage steam vent or steam vent seal packing.

- In case steam vent or steam vent seal packing is separated or damaged, stop using the device and contact your representative or service center.

Keep steam vent always clean with no foreign matters near it.

In case Cooking switch refuses to be pressed or does not work before or after use, contact your representative or service center.

Please clean the body and other parts after cooking.

- It can cause the transformation or smell.

To clean the product, wait until it cools down.

- Touch hot area may become a cause of burn.

When you pull out the power plug, don't pull the power cord. Please, safely pull out the power plug.

- If you inflict impact on power cord, it can cause an electric shock or fire.

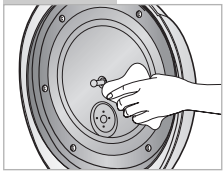
CLEANING AND MAINTENANCE

- **Negligent cleaning may cause a bad smell while keeping the rice warm. Clean the lid frequently**
  (Clean the rice cooker after pulling out the plug and wait until the main body cools.)
- Wipe the main body and the lid with a dry dishcloth. Do not use benzene or thinners.
- The rice water left on the inner lid or in the inner pot may form a starch film but it is harmless.

Inner Pot

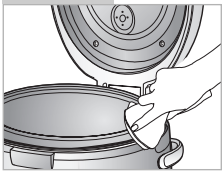
Wipe alien materials and moisture from the outer and the bottom of the inner pot. Using a rough sponge, brush or abrasive may result in peeling of the coating. Use dishwashing detergent and a soft cloth or sponge.

Inner Lid



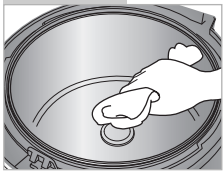
If rice water remains on the inner lid, wipe the lid with a dry dishcloth. Since the edge of the lid is made of metal, clean it with care.

Main Unit



The rice water generated while cooking is designed to be collected in the dew dish. After cooking, clean it with a dry dishcloth.

Inner Body

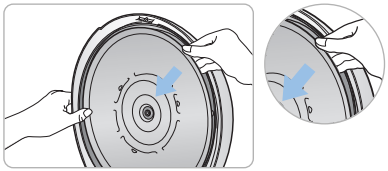


If alien materials stick to the temperature detector, remove them while avoiding damage to the metal plate. Wipe alien materials or moisture from the thermal plate.

※Caution when cleaning inner pot
When cleaning the inner pot, do not clean it with sharp cutlery (fork, spoon etc) placed in the pot.
- It can cause damage on the inner pot coating.

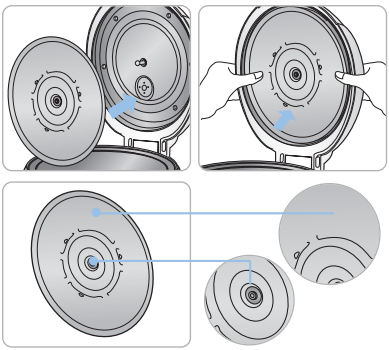
How to detach/attach detachable cover

1 How to detach detachable cover



▶ Gently pull the detachable cover.
▶ Push the Detachable Cover lever upwards with the other hand, and gently pull the Detachable Cover. Then, it will be detached.
※ **Do not grab and pull by the cover packing of the lid.**

2 How to attach detachable cover

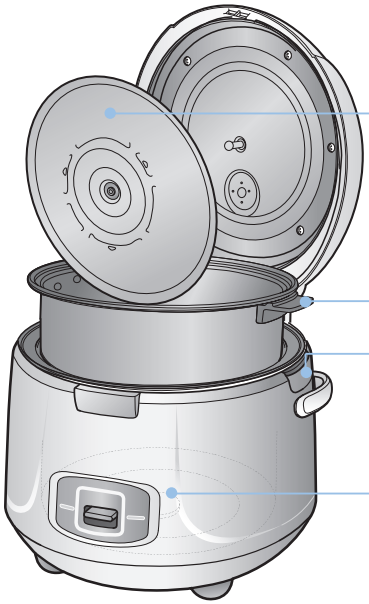


▶ Referring to the photo, push the detachable cover gently to the lid for attaching.

How to Manage the Inner Part

We have coated the inside of the product with non-stick fluorocarbon coating in order to prevent rice from sticking on the pot.

- Use the Rice Scoop.
- Do not put a metallic spoon or dishware into the product.
- Do not use benzene, thinner etc.
- If you have used seasoning, wash the product immediately after use.
- Some stain may remain during the use, but this does not affect the hygiene.



Before cleaning, pull out the detachable cover.

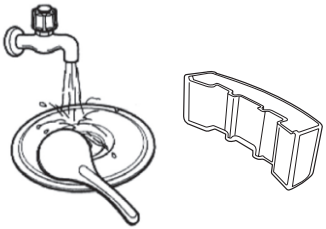
When storing, cooking, and warming, make sure to wipe out all the moisture off the outer part of the oven. It may cause outer coating to change color.

After cooking, wipe the excess water with a wet cloth to prevent any smell in the future.

If there is any alien substance on the temperature sensor carefully wipe it out without damping the metal plate.

Wipe the body frequently with dry cloth, soft material or etc.

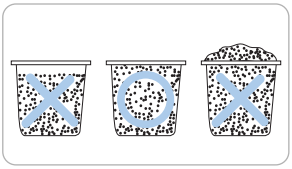
Wash inner lid and accessories with running water and wipe them with dry cloth.



HOW TO USE

1 Measure rice precisely with measuring cup.

▶ One measuring cup of rice is about 180mL, the cooking amount for 1 serving of adults.



2 Wash rice in container other than Inner pot.

▶ How to wash rice

① Wash rice by rubbing it 20 times or so with palm in separate container.

② Rinse rice sufficiently until clear water comes out.

③ For better taste of rice, cook washed rice after leaving it for 30 minutes or so in sieve.

3 Put washed rice in Inner pot and adjust water amount.

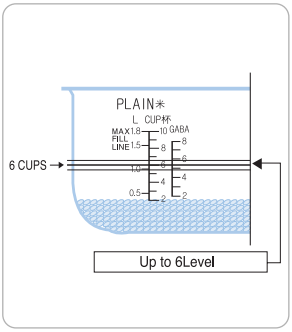
▶ The graduations of Inner pot serve as the criteria to adjust water level. For instance, to cook rice for 6 servings, put 6 measuring cups of washed rice into Inner pot, and adjust water precisely so that water may be filled up to graduation of 6.

※ Water may be adjusted accurately only if Inner pot is placed at horizontal place.

▶ Water Amount:

· When rice is swollen sufficiently
· For thicker rice
→ Pour less water than specified amount.

· When cooking with long-stored rice
· For soft-boiled rice
→ Pour more water than specified amount.

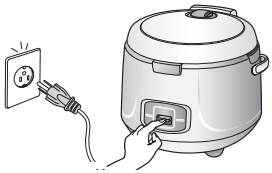


▶ CAUTION

· If rice and water amounts are not adjusted precisely, rice won't be cooked to desired condition.
· If rice amount exceeds maximum rice graduation, rice may not be cooked.

4 Put Inner pot and close the lid tightly.

5 Connect power plug, and press Cooking switch.



6 Once cooking is completed, the cooker enters Warm mode automatically.

(Please keep the lid closed for 15~20 Mins in Warm mode for better taste.)

7 Before having the rice, please stir the rice after 15~20 Mins in Warm mode.Then close the lid and keep the cooker in Warm mode.

Take note

1. To remove odor during Warming:
   ① Pour water in Inner pot up to the graduation for 10 servings cooking.
   ② Close the lid of Inner pot, and press Cooking button.
   ③ Leave the water boiling for 10 minutes or so, and switch to Warm mode.
   ④ When water is cooled down properly, take out inner pot and inner lid and wash them clean.
2. After product is opened, foreign matters may be stained at Inner pot. Wash Inner pot clean before using it.
3. If inner lid is not attached, warm performance may drop. Be sure to attach separable cover before use.
4. NEVER use inner pot for purpose other than rice cooking. If inner pot is used for other purpose, remove odor in the method provided in paragraph 1 before cooking.
5. What is melanoizing?
   Rice cooked/warmed in this rice cooker will assumes slightly yellowish tone at the bottom. This is a phenomenon called melanoizing which is intended to produces the unique soothing flavor and taste of rice.
6. During warming, 'click' sound may occur from the product. This sound indicates that thermometer is working properly and does not mean it's malfunctioned.
7. This rice cooker is designed so that power be supplied and lamp illuminate even when Inner pot is not in place. (When the rice cooker is not used, pull out power plug.)

CHECK BEFORE ASKING FOR SERVICE

▼ If the cooker is not used according to specified procedure, it may not work properly even though the cooker is not malfunctioned.
If rice does not cook properly or warm is abnormal, check the condition per the checklist below.
If abnormality still persists even after checking, consult customer care center.

Symptom	Checkpoint	Action
Rice water overflows	• Wasn't there too much water beyond criteria water level when rice was cooked? • Was the rice cooked without inner lid attached?	• Open the lid and take out water. • Attach inner lid.
Cooked rice is: • Too thick • Half-cooked • Too soft-boiled	• Is water adjusted to proper level? • Is there any foreign object stuck at the outer bottom of inner pot, or is the bottom of inner pot uneven? • Did you open the lid without waiting 15 mins after Cooking switch was turned off? • Wasn't power cut or did Cooking switch go OFF during rice cooking?	• Adjust water level to measurement graduation depending on rice amount. • Clean foreign object. • Keep the lid closed and let the steam settled as long as possible. • Do not touch Cooking switch until rice cooking is completed and the switch turns OFF automatically.
Rice is scorched and stuck to Inner pot.	• Was the rice washed properly? • Wasn't Cooking switch pressed forcefully even if rice cooking is completed and the cooker switched to warm mode. • Wasn't the rice cooked without the scorched trace at the bottom of inner pot washed off? • Wasn't there any foreign object stuck between heating plate and inner pot when rice was cooked?	• Wash rice clean always. • Once rice cooking is completed, NEVER press Cooking switch. • Use inner pot cleanly always. • Use heating plate and inner pot cleanly always lest foreign object should stick to them.
Cooked rice has odor or is discolored in warm mode.	• Is the lid closed tightly? • Does power plug refuse to be pulled out during warming? • Was there any spatula, cold rice or other grains during warming? • Wasn't the amount of rice too small?	• Close the lid completely to allow no gap. • Keep power socket plugged always during warming. • Do NOT put in spatula, cold rice or other grains. • If the amount of rice to remain in warming mode is small, gather rice at the center of inner pot during warming.

MEMO

CUCKOO ELECTRIC RICE COOKER/WARMER
LIMITED WARRANTY

KEY Company, P&K USA TRADING CORP and Cuckoo Trading Canada will repair at its option replace, without charge, your product which proves to be defective in material or workmanship under normal use, during the warranty period listed below from the date of original purchase. This warranty is good only to the original purchaser of the product during the warranty period. P&K USA TRADING CORP. covers the east and the central districts, KEY Company covers the west and the central districts, Cuckoo Trading Canada covers the whole Canada.
